After much deliberation, Saudi Arabia's pharmaceutical expert Tamer Group was selected as the winner for the successful opening of its world-class warehousing facility in the Alkhomra district of Jeddah, which measures 32,000 square metres and has been credited for creating a new benchmark for excellence in the Kingdom.

Previous category winners: Al-Futtaim Retail (2007), Nikai (2008) and Unilever (2009)

Winner's Quote: "This is a fantastic achievement for Tamer Group. The award has shown that our company has taken its supply chain operations very seriously and we have also set an example for other companies that operate their warehousing and transportation in Saudi Arabia. We would like to thank the SCATA judging panel for this honour." {Toufiq Chawdhury, national distribution manager, Tamer Group}
